

# CHI On-The-Ground COVID-19 Relief

June 2020

## COVID-19 Relief Impact Highlights

For the first time in human history, every country on the planet is confronting the same enemy at the same time: COVID-19. This disease has claimed more than 250,000 lives and significantly disrupted daily life the world over. As the data continue to illustrate, vulnerable people in non-pandemic times are faring worse in this crisis. CHI has responded with agility, humanity, and competence to quickly survey its project needs and deliver critical supplies in record time. Thanks to these efforts, over a thousand children and families will not go hungry, can maintain hygiene, and continue learning.

### CHI Delivered

**1,725**  
Soap Bars

**13,909**  
Face Masks

**725**  
Hand Sanitizers

**300**  
Pen Drives

And

**295,522 Meals**

In addition to donating

**2,000**  
**Gloves**

to

NYC  
HEALTH+  
HOSPITALS

Elmhurst

## Impact Storytelling

### COVID-19 Response

#### Introduction

The COVID-19 pandemic is demanding agile response from every individual and organization, including CHI and our on-the-ground partners. These stories illustrate our response, as well as how we are working to empower our partners and their communities to be sources of resilience, strength, and service during this uncertain time.

#### Preventing Hunger & Malnutrition In the Wake of Crisis

UJAS, CHI School, CHIGS, Ek Asha, Prayas and beyond

Children's Hope India provided **46,529 meals to refugee families in Jodhpur** with a supply of food that includes flour, oil, pulses, sugar, and other essentials. **In New Delhi, we provided 28,480 meals**, including oranges, biscuits, jaggery and chickpea mix, and easy-to-cook khichdi packets. Through one- to three-month food supplies, we are **providing 196,225 meals to Bhopal families**, in addition to immunity booster drops for students. **In Mumbai, we are distributing 1,200 meals to student families that have lost their ability to work. We are also delivering 15,040 meals to families in and around Bhuj village.**

## Impact Storytelling

### COVID-19 Response

#### Empowering Projects To Share Knowledge And Serve Their Communities

UJAS – Jodhpur; CHIGS – Bhopal; Prayas; Ek Asha

In Jodhpur, enterprising female residents are learning how to sew masks, and have already supplied **2,084** to the private Kamla Nehru Hospital for elderly and sick patients, and healthcare workers, all of whom are victims to a severe shortage of personal protective equipment (PPE). Their work was publicized in the local newspaper, **Dainik Bhaskar**, **Times of India** and in the U.S. through coverage in **Forbes**. They are now learning to sew gowns and scrubs for the healthcare worker population; and their model is being used in other project sites. In Bhopal, CHIGS girl students and their mothers have made more than **5,000** masks for the local community. In Delhi, Prayas has procured sewing machines for community members to donate **3,425** masks for the community and for healthcare workers.

Gloves Distributed

## Impact Storytelling

### COVID-19 Response

### CHI Volunteers Rally Support to the New York City Tristate Area

#### CH2 and CH3

In the face of the developing COVID-19 outbreak and crisis, Children's Hope India's dedicated volunteers are channeling their skills and resources to support people in need and hard-working healthcare and emergency services teams.

#### CH2

- Supporting mental health of **91 healthcare workers** through livestreamed Bollywood dance classes at **Mt. Sinai, Northwell** and other hospitals throughout the crisis.

#### CH3

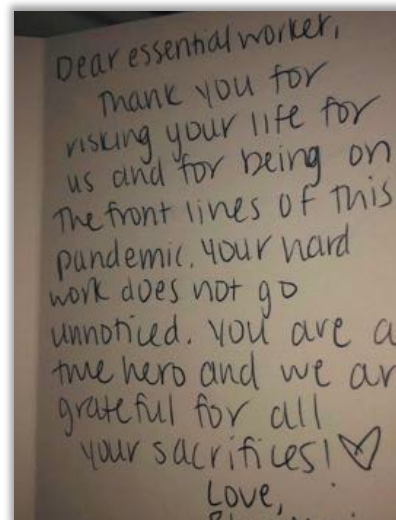

- Delivering 575 Snack Packs:** CH3 moms and their kids produced snack packs for healthcare workers in Nassau County. Students dropped off the packs so the County could manage safe distribution.
- Distributing gift cards for groceries to families impacted by the virus and living in precarious economic conditions, in Nassau County.

ER staff receive lunches and thank you notes

CH3 volunteers deliver lunch to police station

Personalized notes were given to essential workers
